

BMCR Nuffield Health SW Series 2022

BMCR Region 10 News

Great News!

We are really pleased to announce a new partnership between **BMCR Region 10** and **Nuffield Health Exeter**, with Nuffield Health Exeter Hospital sponsoring a new **Nuffield Health SW Series** of races in 2022.

- The races will all take place in Region 10 (SW), and each event will be open to all BMCR members, with points awarded to the top finishers in each age category.
- The age category winner in each event will receive a special prize donated by Nuffield Health – this is in addition to the regular prizes awarded by the race organiser.
- At the end of the Series, the rider with the highest cumulative points in each age category will receive a commemorative race jersey (supplied by Bioracer), and a prize. And, the highest point-scoring local (Region 10-based) rider overall will also get a jersey and prize.
- Nuffield Health Exeter Hospital will also offer a special discount on selected procedures to local BMCR members
- The Nuffield Health SW Series for 2022 is planned to consist of 3 or 4 races throughout the season, dependent on availability of suitable races, which could include road, circuits or crits.
- We aim to include races, and Series Winners, for all BMCR age categories – A, B, C, D, E, F, G+, and Women, making this an inclusive Series with opportunities for all.

The SW region (BMCR Region 10) covers Cornwall, Devon, Somerset, Dorset, Wiltshire, Hampshire & Surrey.

Series Calendar

May 15th GS Vecchi, Dorset (confirmed)

TBC Additional events are required from local SW clubs to make the Series viable

About our Sponsor

Nuffield Health Exeter Hospital, conveniently located just minutes from Exeter city centre and adjacent to the Royal Devon and Exeter Hospital, is one of the leading providers of healthcare in Devon and the wider SW.

Their dedicated staff and consultants offer rapid access to expert treatment and personalised care across many specialties including orthopaedics, cardiology, general surgery and men's and women's health

The hospital specialises in orthopaedic surgery, building on Exeter's international reputation in the field. Some of the UK's top orthopaedic surgeons practise at the hospital, providing the very best care to those undergoing hip, knee, spinal, shoulder or foot and ankle operations.

With 120 consultants from over 30 specialties, the hospital also offers minimally invasive procedures to correct eyesight problems, varicose veins and gynaecological or gastrointestinal disorders to name but a few. Consultants are supported by state of the art in-house radiology including MRI and CT, pathology, pharmacy, physiotherapy and wellbeing services.

The hospital has high standards of cleanliness with zero cases of MRSA or C.Difficile in recent years. Patients are afforded the highest standards of comfort and privacy with their own bedroom complete with en-suite facilities. Customer satisfaction ratings are consistently in excess of 95%.
